PROFESSIONAL SUMMARY

Computer Engineering student and Physics minor at Aydin Adnan Menderes University[cite: 53, 57]. Focused on solving engineering challenges through physical and mathematical foundations, with a background in embedded systems and software development[cite: 54]. Experienced in organizational leadership as General Secretary for IEEE ADU[cite: 55, 71].

EDUCATION

- Aydin Adnan Menderes University** Aydin, Turkey
B.S. in Computer Engineering (GPA: 3.1) *Sep 2023 – Jun 2028 (Expected)*
[cite: 57, 60]
 - Physics Minor Program (Commenced Sep 2025)[cite: 61].

EXPERIENCE

- InfoCube IT Consulting** Remote
Volunteer Intern *Jun 2025 – Sep 2025*
[cite: 65, 66]
 - System and Network Management: Configured corporate network hierarchies and deployed core IT infrastructure[cite: 67].
 - Hardware Integration: Integrated servers and endpoint devices into network frameworks[cite: 68].
 - Operational Optimization: Supported IT infrastructure management and technical problem solving[cite: 69].
- IEEE ADU Student Branch** Aydin, Turkey
General Secretary *Jun 2025 – Present*
[cite: 71, 72]
 - Project Coordination: Managed planning and budgeting for UNIDES, 3rd Aydin Technology Summit, and IEEE Aegean Region Meeting[cite: 73].
 - Strategic Management: Handled official correspondence and board meeting organization[cite: 74].
- Astralles Rocketry Team** Aydin, Turkey
Embedded Systems Developer *Aug 2024 – Mar 2025*
[cite: 76, 77]
 - Telemetry Design: Developed low-power telemetry architectures for high-altitude rockets[cite: 78].
 - Sensor Fusion: Implemented I2C and SPI protocols for high-precision flight data acquisition[cite: 79].
 - System Validation: Conducted integration and field tests to ensure firmware compatibility with mechanical systems[cite: 80].

SKILLS

Languages: Java, C, C++, Python, JavaScript, HTML/CSS [cite: 82]
Embedded & Hardware: ESP32, Arduino, IoT Applications, Sensor Integration, Telemetry, I2C/SPI [cite: 83]
Tools & Technologies: Git, GitHub, React, Linux Basics, System & Network Configuration [cite: 83]
Management: Project Management (UNIDES), Team Leadership, Event Coordination [cite: 84]
Languages: Turkish (Native), English (B2) [cite: 85]

PROJECTS

- PrizmaVita** | *React, JavaScript, HTML/CSS*
[cite: 87]
 - Modern UI/UX portfolio and blog platform developed with component-based architecture[cite: 88].
- ESP32 Digital Multimeter** | *Embedded C++, OLED*
[cite: 89]

- Portable measurement device utilizing ADC units for high-precision data acquisition.

- **Smart Misting System** | *Arduino, IoT*
[cite: 90]

- Autonomous climate control system utilizing sensors for automatic humidity optimization[cite: 91].
